

SOS PILOT'S LIFE JACKET

The **SOS Sea Pilot's** high tech life jacket is integrated into a coat using a **quick-burst zipper** with **275N** of buoyancy

The lifejacket inflates **outside the coat** making it simpler for the wearer and more visibility for the rescuer.

This waterproof coat uses a two layer barrier system within the lining. It is a $\frac{3}{4}$ length jacket keeping you warm and comfortable with the added feature of neoprene sleeves for a wind break.

Features include:

- Automatic /manual inflation
- Oral inflation system
- **Clear service window**: provides the added benefit of detecting at a glance the lifejacket is ready
- Adjustable, foldaway lined hood
- Easy to read service labels inside the flap of the life jacket and on the back inside of the coat
- SOLAS approved retro-reflective tape
- SOLAS approved water activated light
- Whistle
- Two outside pockets
- Pocket to suit PLB
- Clear plastic ID holder on lifejacket
- Fleece collar with fasteners for wind break
- Stainless steel buckle with **neoprene cover**
- D ring for attaching life- line
- Adjustable waist belt
- Crutch straps
- Taped seams
- Available in sizes S, M, L, XL, XXL to fit warm clothing
- Two **insulated pockets** to keep hands warm
- **Neoprene sleeves** to stop water running up sleeve
