Load-Bearing Utility Equipment Vests- by SOS Marine

PLANET SAVED by not transporting plastic water bottles in the workplace.

The S.O.S Hydra Pac Anti-Microban Drinking Bladders can be fitted to your equipment vest to assist hydration. This assists the carbon footprint associated with bottling and transporting plastic water bottles especially on dangerous missions.

- There is a quick and easy ability to immediately replenish your team`s water supply by refilling the water bladder:
- It is easily removed from the rear and replaced with a new water bladder if worn by a new team member.
- Easy access to use ON/Off valve with a wide neck opening,
- Twist cap to allow easy filling with a cap restraining strap
- Screw on/off tube for ease of cleaning & replacement

Managing hydration in your workplace-dehydration and heat stress is one of the main medical emergencies confronting OH & S supervisors.
