FIRE RETARDANT HANDS-FREE PERSONAL HYDRATION BACKPACK

DESIGN FEATURES- Australian Made

SOS Marine has 30 years industry experience and the capacity to design-assist specialised safety equipment for the most demanding work-place requirements.

- The SOS Hydration system is manufactured using industrial strength technology, flame resistant fabric.
- **Microban** bladder-This new technology for water bladders is anti-microbial, taste free reservoir and tubing which keeps water fresh at all times by inhibiting bacteria and fungus growth, making it easy to clean.
- The harness incorporates a breakaway system at the collar bone area on both sides, easy to release if there is emergency, increasing workplace safety.
- Company logo may be placed on your personal hydration system with retro-reflective silver strips for high visibility.
- Easy access to fill/re-fill a 3 liter bladder, wide neck opening.
- Opening is large enough for internal cleaning maintenance
- AUSTRALIAN TEXTILE MILLS Proban orange cotton fabric-
EN ISO 11611:2015:PARA. 6.7.(Procedure B)after 50 wash and dry cycles. EN ISO 11612:2015:PARA. 6.3. (Procedure B)after 50 wash and dry cycles. AS 4824 - ISO 15025: 2016 Procedure B Edge ignition Wash Procedure ISO 15797:2017 Table 4 Method 2 (Reduced Load)

Special feature: Air flow poly-mesh, this high tech fabric is placed on the back of the backpack for an extra cooling effect.

MICROBAN DRINKING BLADDERS : Product Code # SOS-5101M / FDA Approved

Microban product protection is not designed to sanitize water, normal cleaning practices should be maintained. (See our cleaning details)

- Easy access to use ON/Off Valve with a wide neck opening,
- Twist cap to allow easy filling with cap restraining strap
- Screw on/off tube for ease of cleaning & replacement

Drinking Bladder – with new Microban technology anti-microbial protection keeps this product cleaner and fresher by continuously inhibiting the growth of bacteria that can cause stains and odours. (Using industry standard testing methods)

- Kirby Bauer test method demonstrates the effectiveness of Microban technology against bacteria.
- 3 litre Bladder, 0.32MM FDA approved TPU
- Antimicrobial product protection, USA patent No. 5699933 No.6, 085,097
