## Commercial Marine operations are unique

SOS Marine, international award winning innovators of maritime life-saving equipment.

The S.O.S. Waterfront Lifejacket Vests are purpose-designed providing a uniquely practical and straightforward approach to suit requirements of various water-front teams.

The specialised design is a work-vest with the safety of a lifejacket all in one including custom made pouches to carry frequently used equipment to assist in time management.

The lifejacket provides an optional hands-free hydration system placed in the rear of the vest to assist the management of heat stress in the marine workplace environment.

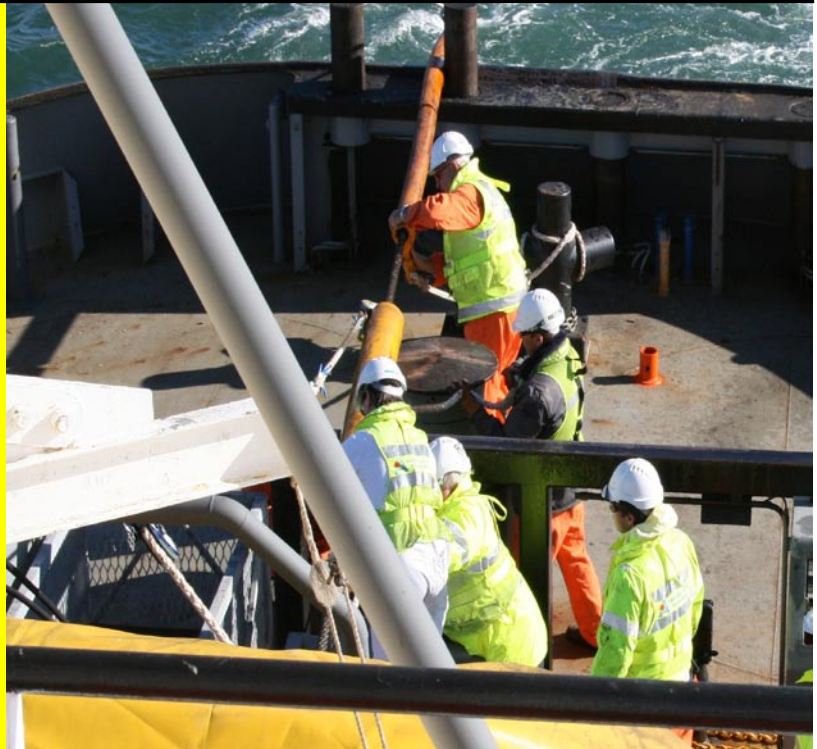

The Lifejacket Vest is a proven design that ensures safety. It is lightweight, comfortable and certified to the latest requirements of international standards (ISO 12402). The lifejacket is a 275N or 150N inflatable lifejacket and D-Ring for harness or safety line, complies with EN ISO 12401:2009

SOS Marine designing safety equipment for the changing world

# S.O.S Waterfront Lifejacket Vest

## Design features

- The Lifejacket vest uses a zipper fastening at the front with an adjustable waist.
- The buckle is stainless steel interlocking style.
- Detachable reflective ID Strip
- Webbing loops to secure radio cords & cabling.
- Easy access pouches for communication equipment, medical kit, torch etc
- Custom designed pockets for note pads and personal items.
- Pea-less whistle
- SOLAS grade reflective tape located in a minimum of 6 places on upper side of the buoyancy chamber

- Adjustable crotch straps are located in an internal secure pocket of the vest
- Optional personal 3 litre hydration system hands-free in rear of vest.

**The S.O.S Waterfront Lifejacket Vest is constructed from the highest quality materials and components with a high resistance to abrasion, UV and saltwater environments**  
**Available in a Fire Resistant Cover (optional)**

Photo showing drinking from water bladder  
Your chances of survival would greatly improve if you go overboard

## Managing heat stress in marine work-place

SOS Marine recognises how important it is to stay hydrated by incorporating a hands-free water bladder in the design of this vest. This allows the wearer to have access to quality drinking water while working or in the event of man-overboard situation. The personal water bladder may be easily removed from the vest and replaced if worn by a new team member.

The design of the lifejacket enables waterfront risk management teams to improve their capabilities and effectively support Occupational Health & Safety (OH&S) obligations.

This simple innovation assists **the carbon footprint** associated with bottling and transporting plastic water bottles
