## FLOOD RESCUE PFD SOS-9929-6

### SMART OPTIONS IN THE DESIGN

- The high visibility and close-fitting vest are made of woven fabric air textured materials which allows the body to breath. The outer material is water resistant and excellent for UV protection. The Flood Rescue PFD contains **extra flotation** to combat reduced buoyancy in turbulent water.
- The vest has two webbing D rings permanently attached to the bottom of the life jacket for attaching accessories with several pockets allowing rescue swimmers to safely and quickly reach victims in moving water, this includes an over the shoulder **cow tail** aiding in self rescue.
- Pockets are provided to stow first aid supplies, radio, epirb and personal items. It is fitted with a pe-less whistle.
- An integrated structural harness with front and back protective plates and single piece over the shoulder foam designed to **provide extra strength**, structural integrity and body protection.
- The Flood Rescue PFD has a heavy-duty zipper fastened at the front and adjustable wait belt to provide a secure fit and prevent ride up with a **quick release belt** to help the rescuer to escape dangerous situations. Fast Tabs on both shoulders act as easy attachment points for accessories.
- This PFD has **quick release buckle** and purpose-built pockets - designed in heavy duty fabrics and thread for longer life of the product

## SOS HYDRAPAC SOS-5101M MICROBAN DRINKING BLADDERS FDA APPROVED

## CLEANING KIT SOS-5057 NSN: 8456-66-148-7876

### SMART OPTIONS IN THE DESIGN

- SOS Marine has incorporated a hands free hydration system in the rear of the vest which allows the wearer to have access to quality drinking water
- This assists the **carbon footprint** associated with bottling and transporting plastic water bottles especially on **dangerous missions**.
- There is a quick and easy ability to immediately replenish your team's water supply by refilling the water bladder:
- It is easily removed from the rear and replace with a new water bladder if worn by a **new team** member.
- Easy access to use **ON/Off** valve with a wide neck opening.
- Twist cap to allow easy filling with a cap restraining strap
- Screw on/off tube for ease of cleaning & replacement

**PLANET SAVED** by not transporting plastic water bottles in the workplace. S.O.S Hydra Pac Anti-Microban Drinking Bladders can be fitted to our lifejackets to assist hydration.

## SWIFT WATER RESCUE PFD SOS-5721-1

The shell is tough 300D Polyester Oxford PU Coated ® fabric Colour Fastness and has plenty of SOLAS reflective striping on both sides

## POLICE RESCUE SWIFT WATER PFDS SOS-5721

The shell is tough 500-denier CORDURA® nylon fabric and has plenty of SOLAS reflective striping on both sides

### SWIFT WATER RESCUE PFD and Police Rescue Swift Water PFDS SMART OPTIONS IN THE DESIGN

- Quick release pulls tab front belt buckle
- Standard lash tabs and D-rings for a knife etc
- Internal approved whistle
- Radio pocket to fit most models
- The back has an attachment point for a glow stick
- Special purpose internal foam adjustment zippers
- Non-stretch hardwearing internal mesh
- Leg straps with concealment pockets
- The large front pockets stretch to hold carabiners, web, a GPS, or a radio
- Double plastic press stud tabs on the right and left side to attach the carabiner on a tether
- Side adjustments allow a snug but comfortable fit over 4 sizes

### ABOUT SOS MARINE

SOS Marine is an Australian manufacturing company developing specialised marine safety and rescue equipment for maritime professionals including 14 countries Defence Forces world-wide.

The company is one of the few companies world-wide to purpose-design specialised professional waterfront safety equipment and for high-risk marine tactical operations.
