

SOS HARNESS LIFEJACKET

DESIGNED SPECIFICALLY FOR MARINE SALVAGE TEAMS

The SOS Harness - Lifejacket combined to give the user an unequalled level of flexibility in both marine and shore-based work environments.

SOS HARNESS LIFEJACKET PRODUCT NUMBER: SOS-6182

THE SOS HARNESS-LIFEJACKET IS DESIGNED TO BE HOUSED IN AN AROUND THE NECK COLLAR VALISE AND ATTACHED TO A MESH VEST

- The mesh vest allows the harness to be incorporated and adjusted into, or removed from the lifejacket, as required by the user
- Lifejacket collar has neoprene wetsuit neck protection
- The lifejacket has specifically designed zipper lining pockets that house the harness
- Front and rear lift points. The back lifting point with 316 **Stainless Steel Fittings**
- When combined, the lifejacket vest allows the user to don and adjust both the harness and the vest in about 30 seconds
- The waist belt is construction from 50mm webbing and features a stainless-steel interlocking style buckle and **D** ring for attaching a lifeline
- A **SOLAS** flashing signal light has been fitted and is located on the front chest area. It is activated upon immersion in water and if necessary, can be turned off during daylight
- **SOLAS** grade tape is located in a minimum of 6 places on the upper side of the buoyancy chamber
- A pea-less whistle is provided for use in water.
- Available in 150 Newton bladder or 275 Newton bladder
- Auto inflation or Manual inflation if required

ESSENTIAL STAINLESS-STEEL HARDWARE

BSI Certified Product
AS/NZS 1891.1:2020 -Lic.
BMPNO 71 3823

- Pebble Weave Webbing design provides maximum grip for buckles, eliminating webbing slippage and the need for continual re-adjustment
- High Tenacity UV stabilised webbing, enhances resistance to solvents and UV light degradation
- Retro-Reflective Thread in webbing for improved visibility in low light
- Large Dorsal D Ring for easier connection
- Closed Loop Webbing system on rear Dorsal D maintains positioning of Dorsal D in the event of a fall. Significantly reducing the risk of injury from hardware hitting the back of worker's head
- Extended Belay Loops make connection of hardware easier, also maintains absolute front and centre positioning as per AS/NZS requirements
- Sub Pelvic Strap integration along the line of Belay Loops, places the worker away from hardware in the event of a fall, significantly reducing the risk of injury from hardware hitting the worker
- Articulated Chest Strap and shoulder adjustment points,
- designed for additional user comfort and female users, due to lower positioning of strap
- Padding under buckles with Service Pouch on back

SOS Marine is proud to incorporate the LINQ'S Essential Harness - Maxi (XL-2XL) into the custom designed zipper lining pockets of the SOS Harness Lifejacket. LINQ test lab facility is NATA accredited and BSL lab recognised.
