

SOS MARINE

SOS Marine has 30 years industry experience and the capacity to design-assist specialised safety equipment for the most demanding work-place requirements.

SOS Marine is designing safety equipment for the changing world

LOAD BEARING EQUIPMENT VEST FOR LOCAL COUNCILS

- The vest is manufactured from highly breathable, heavy duty 250D polyester - provides good ventilation to the user
- Specific designed pouches are provided for the carriage of equipment
- Belt loops are provided to allow the attachment of a military-style equipment belt below the vest, providing increased load capacity.
- The vests are available in small and large sizes and have sufficient adjustment to fit most users.
- Numerous strips of reflective material are fastened to the vest, providing safety and easy identification on night and low-light conditions with ID plastic pocket
- The vest may be designed for your special requirements and available in different colours.
- The vest has a number 10 heavy duty zipper
- Quick release key loop with eyelet
- Includes a 3 litre drinking bladder (hands-free) in the rear of the vest
- Weights approx 1.2kg (without water bladder)

Managing heat stress in workplace

Dehydration and heat stress is one of the main medical emergencies confronting **OH&S** supervisors.

- SOS Marine recognises how important it is to stay hydrated by incorporating a 3 litre water bladder into the rear of the vest.
- This allows the wearer to have access to quality drinking water while working.

In an emergency situation, there is a quick and easy ability to immediately replenish your team's water supply by refilling the water bladder. Just lift the outer flap-cover to refill the bladder.

This simple innovation also assists the **carbon footprint** associated with bottling and transporting plastic water bottles.

Designed to give wearers excellent comfort and manoeuvrability- Available in FIRE RESISTANT FABRIC

This personal water bladder is easily removed from the rear of the vest and replaced if worn by a new team member
