

SOS MARINE

SOS Marine has 30 years industry experience and the capacity to design-assist specialised safety equipment for the most demanding work-place requirements.

Designed especially for the A.R.F.F. Water Rescue Fire Proof Cover -Product Code SOS-6354

Designed especially for Australian Navy -Fire Retardant Lifejacket -Product Code SOS-5222

The high quality and unique design of this SOS Fire Retardant Lifejacket has meant that the Australian Navy has adopted this item as a standard for their flight deck operations.

- Consideration given to comfort and mobility. This lifejacket is easily worn over a T-shirt or jacket
- This lifejacket is designed to be housed in an around neck collar valise.
- The wearer may inflate the chamber via a CO2 gas inflator on the bottom right-hand side by pulling the toggle, or via the oral tube on the left-hand side of chamber.
- **SOLAS** light has been fitted and located on the front chest area. It is activated upon immersion in water and if necessary can be turned off during daylight.
- **SOLAS** grade reflective tape is located in a minimum of 6 places on the upper side of the buoyancy chamber.
- By using the most advanced fabric and manufacturing processes, the outer valise cover of this model is manufactured from Indura "Ultra-Soft" flame resistant fabric. This material provides a flexible and easy to wear cover that is breathable and water resistant, in all, but the most severe conditions.
- The fabric also protects the bladder against damage from flame and flash exposure, making it suitable for use in the high risk **Mining and Petrochemical industries**, as well as **ship repair and salvage operations**.
- D-ring for a 2 metre Life-Line with stainless steel waist buckle

SOS Fire Rated Lifejacket SOS-5222
