S.O.S. LAW ENFORCEMENT **LOAD BEARING TACTICAL LIFEJACKET**

S.O.S Law Enforcement Lifejacket

SOS Marine supplies safety equipment to 12 National Defence Forces world-wide

S.O.S Lifejacket and load bearing tactical vest is well suited for high-risk tactical situations.

S.O.S. Law enforcement lifejacket is designed to fit over body armour and have pockets and pouches designed to suit the mission profile. Fire arm holsters may also be built into the vest during manufacture.

ISO 12402

UDT

-UDT lifejackets are suitable for underwater demolitions, combat swimming and hydro reconnaissance in shallow waters

- The lifejacket is carried in a convenient pouch and donned before entering the water.
- Two back and one waist strap are provided to secure the lifejacket to the user and a lifting handle at the back of the buoyancy at the top

LIFEJACKET

- Operation is by a single red toggle, manual gas inflator or by oral inflation
- a dump valve is fitted to prevent busting. The lifejacket can be slowly deflated by the oral inflation valve, or rapid deflation by a toggle attached to the dump valve.
- Two SOLAS grade reflective strips are attached to the lifejacket using a covering flap to maintain cover

SOS Marine`s UDT lifejacket is a universal device of compact and durable design. The purpose is to provide emergency flotation for naval clearance divers and other divers conducting military operations

Part Number SOS-9960

AWARD WINNING MAN OVERBOARD RESCUE EQUIPMENT

SOS DAN BUOY

SOS Dan Buoy is tested to elements of the lifejacket standard ISO 12402 with **INTERNATIONAL PATENT**

- Just throw, no assembling required. Easily stowed carry bag
- Ready for instant deployment
- It increases vital visibility & buoyancy for the person overboard
- SOS Dan Buoy has webbing loops allowing the person to put their arms around the marker to help support them when fatigued. This gives extra support & security while awaiting rescue
- It can be used in fresh or salt water, when recovered after use it can be recharged and repacked for future use.

Suitable for all size vessels

sMRT SOS Dan Buoy

Combines the electronic **sMRT V 100 Locator Beacon** and the inflatable **SOS Dan Buoy** - safety solution for small and large vessels, oil rigs & wind farms

- The sMRT SOS Dan Buoy is activated sends out SOS signal transmitting GPS coordinates in less than 45 seconds via AIS plus a Marine Radio alert.
- Inflated the SOS Dan Buoy becomes a visual marker with flotation support
- The sMRT SOS Dan Buoy is provided in an all-weather case which can be mounted anywhere on your vessel.
- It is an extremely easy to use solution that helps in the eventuality of a man overboard situation and more importantly can be used by anyone without any training.

A new approach to safety & rescue equipment simple and easy to use

SOS MARINE SURVIVAL OPERATIONS SPECIALISTS

SOS Marine has gained an impressive reputation for understanding marine work-place requirements and one of the few companies worldwide to purpose-design and manufacture this type of specialised safety equipment.

S.O.S Harness Lifejacket Vest

The lifejacket vest is preferred by professionals who work in extreme conditions off-shore and salvage teams across the globe.

-With the increasing awareness of Occupational Health and Safety (OHS) obligations, there is a need for flexibility and efficiency for these waterfront professionals.

-Combined harness lifejacket can be donned in under 30 seconds.

-Harness Tested to AS/NZS 1891.1:1995:5.

The high quality and unique design of SOS Marine's safety equipment is so well respected and highly regarded that 12 National Defence Forces world-wide have purchased our rescue equipment.

Helicopter lifting strop

Developed to the specification of the Royal Australian Navy

SOS-5184 Standard NSN 1670 66 158 44003

Lifting strop: length 2050mm x width 140mm weight 1.4kg safe working load 272kg

SOS-5185 Large NSN 1670 66 158 4004

Lifting strop: Length 2350mm x width 140mm weight 1.5kg safe working load 272kg

Australia's innovators of international marine rescue equipment
