

SOS Waterproof Outboard Motor Bag

Designed for the Special Forces

Waterproof Outboard Motor bags are designed for the Special Forces

NSN 2805 661 473 993

Part Number SOS-9981

SOS Marine is the sole manufacturer of these waterproof outboard motor bags for the Australian Army Special Forces

SOS Waterproof Outboard Motor Bag is used for the carriage of equipment where the items must be protected from water, dust or other contaminants and are delivered by air or combat swimmers.

Dimensions Length 1400mm x Diameter 600mm Load 60 KG

- The waterproof outboard motor bag may also be used to securely carry contaminated items from an area of contamination, for disposal.
- Constructed of *Hyperlon* material with hand-glued, overlapped seams and a waterproof stainless-steel zipper, the waterproof outboard bag has two side carry handles, two tie-down straps and provision for optional shoulder straps.
- An inflation/deflation valve with Velcro securing cover and a zipper-retaining clip are also fitted.
- All metal fitting are 316 stainless-steel, with optional non-reflective black oxide finish
- All bags have an individual serial number for service and life-cycle recording and stock control.
