

PRESS RELEASE

For Immediate Release

12th June, 2013

SOS Marine`s 2 Person Life raft at work again

The SOS 2 Person life raft was instrumental in the rescue operation of two men having been rescued after their boat capsized on the Port Hacking River.

PolAir dropped a SOS 2 Person life raft along with two inflatable lifejackets for the men to assist in their rescue.

The life raft has now been serviced and ready to use for the next rescue.

“The SOS 2 Person Life raft weights around 8 kilos and is an easier device to use for rescue teams and for boaters who are travelling alone or with one other person” says spokes man from SOS Marine.

SOS Marine is an Australian manufacturing company designing safety and rescue equipment for many maritime professionals including 12 countries Defence Forces and worldwide.
